

12th Delhi Course On Neurointervention

22 - 25 March, 2017

UniversitätsSpital
Zürich

Klinik für
Neuroradiologie

For Indian and SAARC Nationals:
INR 20,000/-

For Other Nationals:

Equivalent of USD 700 in INR.

The registration fee includes
Course Fee, twin-sharing
accommodation for the duration
of the course, Gala Dinner and
registration kit and participation in
all scientific sessions.

It is a residential course with an objective to learn and discuss anatomical, biological, embryological, and phylogenetic aspects of various neurovascular diseases and build up a philosophy and knowledge base, a base on which new generation of neurointerventionists and neuroscientists continue to learn for the practice and research the field of neurointervention. This course provides an opportunity to learn from the masters through their thought provoking lectures and in depth discussions on the intricacy and technical aspects of the Neurointervention practice.

- 1- Didactic Lectures
- 2- Video case workshop
- 3- Hands on Material workshop on virtual models.
- 4- Practical learning on Work-Stations.
- 5- Techniques demonstration (in Batches)
- 6- Poster Presentation
